Learning about Local:
A Resource Guide to Iowa Organizations and Programs Supporting Local and Regional Food Systems
Acknowledgements

Prepared by:

Rich Pirog
Associate Director and Marketing and Food Systems Program Leader (formerly)

Mary Claire Geyer
Iowa State University College of Agriculture Dean's Leadership Scholar

Thanks to all the organizations and programs that provided us with the information to assemble this resource guide. Thanks also go to Mary Adams for editing, Tina Davis for design and Laura Miller for communication assistance.

* If there are other organizations or programs that would be appropriate for inclusion in this resource guide, please contact the Leopold Center by phone: (515) 294-3711 or email: leocenter@iastate.edu

Mission or Goal
Promotes responsible development that conserves and protects our agricultural and natural resources, revitalizes our neighborhoods, towns and cities and improves the quality of life for future generations.

Type of Work | Topical Category | Geographic Location
---|---|---
• Research | • Environment and natural resources | Statewide
• Outreach/Extension | • Sustainability in the food system |
• Business Development/ Technical Assistance | • Farmland preservation |
| | • Food-based community and economic development |
| | • Buy local-keep urban centers, towns, and main streets strong and vibrant |

Program Examples
• Iowa Immigrant and Refugee Incubator Farm Program
• Sustainable Planning Workshop (annual in June)
• Healthy Urban Food and Farming Work Group for Polk County
• Policy to enhance farmland protection in Iowa
• Civic engagement allows new growth to be planned to improve communities without sprawling, auto-dependent development resulting in a rapid loss of open space and farmland. Re-use of existing buildings and infrastructure uses our tax dollars more efficiently.

ATTRA National Sustainable Agriculture Information Service (O, P)
A project of National Center for Appropriate Technology (NCAT)

Mission or Goal
Helping people by championing small-scale, local, and sustainable solutions to reduce poverty, promote healthy communities, and protect natural resources

Type of Work | Topical Category | Geographic Location
--- | --- | ---
Research | Energy efficiency | National, with the Midwest regional office serving the Midwest in particular
Outreach/Extension | Food and agricultural entrepreneurship | |
Business Development/Technical Assistance | Food crop production | |
| | Livestock production | |
| | Farm to school | |
| | Agriculture technology | |

Program Examples
- ATTRA provides free technical information on sustainable agriculture and renewable energy.
- More than 250 free publications on a wide variety of livestock, crop and horticultural production and marketing topics are available online (www.attra.org) and by calling ATTRA’s toll-free line (1-800-346-6379).
- The Web site also features news flashes, notice of funding opportunities, a calendar of events, and resource directories, including a national listing of local foods directories.
- NCAT’s Midwest office in Des Moines serves as the regional lead agency for the National Farm to School Network.

## Cass County Local Food Policy Council (O)

### Mission or Goal
The Cass County Food Policy Council (CCLFPC) is committed to bringing together community members and organizations to promote stable food systems and access to healthy, locally produced food for all. The CCLFPC is working to foster collaborative relationships and action in pursuit of its mission. The CCLFPC goal is to establish a coalition of local organizations and individuals with experience working in agriculture, community organizing, nutrition, health services, food retail, public policy, food service, school districts and more.

### Type of Work
- Outreach/Extension

### Topical Category
- Market development and access
- Food and agricultural entrepreneurship
- Sustainability in the food system
- Community food security
- Food-based community and economic development

### Geographic Location
- Cass County

### Program Examples
- Online tools for increased connectivity between Cass County local food producers and consumers/buyers
- Food safety outreach and education
- Farm to school
- Rural community redevelopment
- Community gardens
- Policy education
- Community outreach
- Building public and private partnerships and linkages
- Farmers market development and support
- Youth involvement in food-based agriculture

Mission or Goal
The Drake University Agricultural Law Center examines how the legal system shapes our food system and influences the ability of society to produce, market, and utilize agricultural products. The Center sponsors an array of courses, publications, conferences, research initiatives and a certification program in food and agricultural law. The Center focuses on legal issues involving the full scope of food and agriculture, including marketing and finance; sustainable agriculture; local food systems; direct marketing; international trade; soil and water conservation; land use and environmental issues; food safety; and federal farm programs.

Dubuque Eats Well (DEW) is a roundtable of grassroots networks within the Tri-State community that value sustainable healthy local food systems to the benefit of all. DEW is a participant in our regional food system organization as it relates to comprehensive social policy, economics and legislative issues. DEW values systematic resilience within the six local food chain interlinks: production, distribution/marketing, processing, purchasing/consumption, preparation and waste minimization.

**Mission or Goal**

Dubuque Eats Well (DEW) is a roundtable of grassroots networks within the Tri-State community that value sustainable healthy local food systems to the benefit of all. DEW is a participant in our regional food system organization as it relates to comprehensive social policy, economics and legislative issues. DEW values systematic resilience within the six local food chain interlinks: production, distribution/marketing, processing, purchasing/consumption, preparation and waste minimization.

Flavors of Northwest Iowa

Mission or Goal
Flavors of Northwest Iowa is a regional network for local food producers and consumers. We provide:
- Producer support through access to resources, education, and promotional opportunities
- Information to consumers about local foods and flavors, farmers markets and local businesses
- Support for the local food movement in Northwest Iowa and surrounding regions by helping build healthy food partnerships

Type of Work
- Outreach/Extension
- Business Development/Technical Assistance
- Local food promotion, regional branding

Topical Category
- Market development and access
- Food and agricultural entrepreneurship
- Community food security
- Food-based community and economic development
- Food crop production
- Farm to institution
- Networking

Geographic Location
Woodbury, Plymouth, Monona, Cherokee, Ida, and Sioux Counties

Program Examples
- Siouxland Buy Fresh Buy Local
- Local food system planning
- Farmers markets
- Food asset mapping and local food directory
- Local food promotion and marketing

Fruit and Vegetable Working Group (P)

**Mission or Goal**
To work with partners to help build the production, handling, and marketing capacity for Iowa's fruit and vegetable industries. The group is part of the Iowa-based network of food and agricultural working groups called Value Chain Partnerships.

**Type of Work**
- Research
- Outreach/Extension
- Business Development/Technical Assistance

</tr>
<tr>
<td>• Agricultural Technology</td>
<td></td>
</tr>
</tbody>
</table>

**Program Examples**
- Information gathered and summarized by the Fruit and Vegetable Working group from Midwestern vegetable growers in their first five years of operation will help provide needed input for business planning by new growers. Information includes capital purchases, operating costs, sales and profits for early years.
- Working with a consultant, FVWG has developed a tool to help growers develop an optimum post-harvest handling system to improve the processing line.

Greene County Local Foods Working Group

Mission or Goal
Position the Greene County Local Foods Working Group within the overall local foods system as the central access point for reliable, up-to-date information on fresh, local foods in order to share markets, resources, and community

Type of Work
- Outreach/Extension
- Research
- Business Development/Technical Assistance

Topical Category
- Market development and access
- Food and agricultural entrepreneurship
- Sustainability in the food system
- Food-based community and economic development
- Food distribution and aggregation

Geographic Location
Greene and Guthrie Counties

Program Examples
- Expand on current Greene County Farmers’ Market in order to continue to connect producers and consumers in Greene County and surrounding areas
- In the future, create an Information Hub that serves as a database of market research in order to strengthen the local food system

The Great River Food Alliance of Southeast Iowa (O)

**Mission or Goal**
The Great River Food Alliance of Southeast Iowa, Inc. is a producer-controlled Iowa non-profit corporation. Its mission is to improve the quality and marketability of locally produced food and value added agricultural products. The Alliance’s efforts will in turn enhance the economic viability for local producers while contributing to the regional economy.

**Type of Work**
- Business Development/Technical Assistance

**Topical Category**
- Market development and access
- Sustainability in the food system
- Food crop production
- Food distribution and aggregation
- Farm to school
- Farm to institution

**Geographic Location**
Southeast Iowa (Lee, Henry, Des Moines, and Louisa Counties)

**Program Examples**
- The Alliance’s primary strategy during 2010 was to work with local organizations to employ a full-time food coordinator. Geode RC&D was granted funding to hire Adam Hohl in December of 2010.
- The Alliance is collaborating with economic development, tourism, chambers, and extension organizations in the Great River Region four-county area to develop a regional strategy that will focus on incorporating the food systems along business development and entrepreneurship for the region.
- The Burlington Community School District (BCSD) will become the region’s first Farm to School chapter. The food service manager and superintendent’s goals are to create gardens or high tunnel at each school and use that produce in their cafeteria.

Keywords
Healthy community, health promotion, community wellness grants

Audience
• General community
• Local elected or appointed government officials
• State agency partners
• Policy makers
• Public health/environmental advocates
### Mission or Goal
The Iowa Environmental Council actively works in public policy to provide a safe, healthy environment for all Iowans. We focus on public education and coalition building to give Iowans a voice.

### Program Examples
Educating decision makers, media and the public in efforts to:
- Pass federal climate legislation to reduce greenhouse gas emissions by 83 percent by 2050.
- Pass state legislation to encourage energy efficiency and the use of renewable energy sources by individuals and utilities.
- Implement portions of the federal Clean Water Act in Iowa, such as water quality standards, antidegradation rules, nutrient standards, and much more.
- Reduce loss of important agricultural soils and, with it, farm chemicals that degrade water and air quality.
- Reduce Iowa’s contributions to hypoxia (Dead Zone) in the Gulf of Mexico.
- Reduce ammonia pollution and fine particulate matter pollution in Iowa.

### Type of Work
- Environmental Advocacy and Public Policy

### Topical Category
- Sustainability in the food system
- Environment and natural resources
- Food policy
- Water quality and quantity
- Energy and global warming solutions/air quality

### Geographic Location
Mostly Iowa, but also collaborate on regional and federal policy work with other Midwestern states.

Iowa Great Lakes Local Foods Network (0)

Mission or Goal
To promote a local food system in a seven-county region of northwest Iowa by developing a group of cooperative growers, establishing in-school programs and community gardens, and coordinating a network of diverse partners

Type of Work | Topical Category | Geographic Location  
---|---|---
Outreach/Extension | Market development and access  
Food and agricultural entrepreneurship  
Sustainability in the food system  
Community food security  
Food and health  
Food-based community and economic development  
Food distribution and aggregation  
Farm to school | Iowa Great Lakes region

Program Examples
- Ten local growers aggregating product for sale within a 30-mile radius of the Iowa Lakes area
- Dickinson County Community Gardens established in Spirit Lake with plans for expansion into communities throughout the county
- Spirit Lake Elementary School fourth-grade class presentations and garden emerging as a model for schools in a seven-county region

Iowa Network for Community Agriculture (O)

**Mission or Goal**
INCA is a community development organization focused around local and regional food systems. It is the goal of INCA to develop functional groups and coalitions of farmers, consumers and institutions that build awareness and opportunity for the expansion and growth of local foods across Iowa.

**Type of Work**
- Networking & Community Development

**Topical Category**
- Food and agricultural entrepreneurship
- Community food security
- Food and health
- Food-based community and economic development

**Geographic Location**
Statewide, but focused on specific communities for sustained periods of time.

**Program Examples**
- Biennial local food conference
- Food Mapping Exercise
- Community development around food, agriculture, and the built environment
- Growing Food and Profit

Iowa Small Business Development Center (C)

Mission or Goal
The Iowa Small Business Development Center (SBDC) conducts research, counsels, and trains business people in management, financing, and operating small businesses, and provides comprehensive information services and access to experts in a variety of fields. The SBDC is the only nationally accredited entrepreneurial development program in Iowa.

Type of Work
- Business Development/Technical Assistance

Topical Category
- Market development and access
- Business counseling and training

Geographic Location
Statewide

Program Examples
Iowa Small Business Development Centers are located throughout Iowa. These centers provide business counseling services to new and existing businesses; assist businesses with developing business plans, marketing plans, growth plans, and accessing capital; provide domestic market research and export/import assistance. (All market research and business counseling is free of charge.)

Iowa Western Community College  
Sustainable Agriculture, Culinary Arts, Horticulture and Sustainability Programs

Mission or Goal
Iowa Western is a learning community committed to excellence in meeting the educational needs and improving quality of life through programs, partnerships and community involvement. In a narrower scope on local foods and sustainability techniques, the college educates students, the public, farmers and the community by projects, partnership, and curriculum.

Type of Work | Topical Category | Geographic Location
--- | --- | ---
• Outreach/Extension | • Food and agricultural entrepreneurship | The main campus of Iowa Western Community College is located in Council Bluffs. Iowa Western has four satellite campuses in Harlan, Atlantic, Shenandoah, and Clarinda.
• Business Development/Technical Assistance | • Sustainability in the food system
• For-credit Education | • Energy efficiency
| • Environment and natural resources
| • Food crop production
| • Food distribution and aggregation
| • Food policy
| • Farm to institution

Program Examples
• High tunnel project placed at the local Boys and Girls Club and homeless shelter to provide local food and highlight the importance of gardens
• Continuing education classes focused on local food production
• Composting food waste from culinary food services
• Educational degree and certificate programs in: Sustainable Agriculture, Turf and Landscaping, Horticulture and Culinary Arts
• Sustainable Energy- focusing on renewable energy and energy efficiency

Keywords
Consumer education, buy local campaign

Audience
• General community
• Community-based organizations
• Farmers
• Consumers
• Fresh fruit and vegetable producers
Mission or Goal
To conduct research into the negative impacts of agricultural practices; to assist in developing alternative practices; and to work with ISU Extension to inform the public of Leopold Center findings.

Program Examples
Leopold Center Marketing and Food Systems Initiative has the following objectives:
1. Research and test new marketing strategies and business structures that allow Iowa’s farmers and communities to retain more of the value for energy, food, or fiber produced;
2. Support education, conduct research, and facilitate partnerships to increase investment and support of local and regional food, fiber, and energy enterprises; and
3. Conduct research and education to address challenges that impede farmers and farmer networks from being equal partners in energy, food or fiber-based value chains.

• This initiative awards food systems grants on a yearly basis through the Leopold Center’s competitive grants program. Iowa-based educational institutions and non-profit organizations are encouraged to apply to the Center’s request for pre-proposals in early summer of each year.

Local Foods Connection (O)

Mission or Goal
To make available to the Iowa low-income community the opportunity to enjoy locally made healthy food, to become part of a local, environmentally aware community, and to learn how best to prepare fresh food for the most health benefits.

Type of Work | Topical Category | Geographic Location
--- | --- | ---
• Outreach/Extension | • Market development and access | Iowa City
• Charitable non-profit hunger relief | • Community food security
• Food and health
• Children and families

Program Examples
• LFC enrolls families, individuals and social service agencies (such as a domestic violence shelter) in community supported agriculture (CSA) programs. We pay full price for fresh produce, eggs, bread and meat produced by a variety of sustainable agriculture local farms to donate. Social service, religious and medical organizations refer clients to our program.
• LFC runs an educational program that offers our clients the opportunity to make meaningful changes in their health. Clients earn points for every education activity they complete. With these points they can purchase kitchenware and cookbooks from our small store.
• LFC and partners host an annual free CSA fair in Iowa City and produce a CSA guide.
• To increase the suburban community’s awareness of local farms and sustainable agriculture, LFC recruits anywhere from 50 to 300 volunteers a year to work on farms, an activity that earns the charity credit toward food purchases
• Environmental science classes at the University of Iowa and Kirkwood Community College

**Mission or Goal**

Lutheran Services in Iowa responds to the love of Jesus Christ through acts of service to all. The goal of the Refugee Community Services program includes linking ethnic communities that have come to Des Moines with refugee status to available resources in the community and to help seniors and others in these communities gain access to land and grow food as they once did in their countries of birth.

Northeast Iowa Food & Farm Coalition (O)

Mission or Goal
The Northeast Iowa Food & Farm Coalition has been formed to begin implementation of the strategic plan designed to build a stronger local food and farm economy in northeast Iowa. The coalition has identified the following goals:
1. Provide an opportunity for existing and new producers to diversify;
2. Explore the development of regional processing and storage facilities to add value to all agricultural products in the area; and
3. Increase sale and consumption of locally grown food on a local, regional and national level.

Type of Work       Topical Category                      Geographic Location
• Outreach/Extension   • Market development and access  Allamakee, Chickasaw, Clayton, Howard, Fayette, and Winneshiek Counties
     • Business Development/                     • Food and agricultural entrepreneurship
       Technical Assistance                     • Sustainability in the food system
                                                            • Food and health
                                                            • Food-based community and economic development
                                                            • Food crop production
                                                            • Food distribution and aggregation

Program Examples
• Northeast Iowa Food and Fitness Initiative Annual Conference: This community conference is being planned to assist citizens as they work to improve the policies, practices, and systems that determine how food arrives on our tables and how northeast Iowa communities can grow opportunities for physical activity for all.
• Farm-To-School: A two-year pilot program involving a northeast Iowa FFI Regional School Planning work group’s efforts to grow a Farm-to-School program incorporating healthy local foods into school food programs while teaching people about nutrition and the local food system.
• Annual Buy Fresh Buy Local Campaign: http://www.iowafreshfood.com
• NIFF Education Committee: plans and partners with local organizations and food producers to provide and promote a variety of seasonal workshops for the region.

Next Generation and Savings Incentive Program (P)

Mission or Goal
Help the many families who are bringing back sons and daughters to the farm make as smooth a transition as possible; provide introductory programming that will help beginning farmers commit to an enterprise and then work to make that commitment a reality; link experienced farmers with newcomers through a mentoring program that offers on-the-farm experience; offer targeted trainings, workshops, webinars, and field days on topics identified by beginning farmers, especially production and marketing topics; provide opportunities for beginners to network with each other through field days and conferences and retreats. Provide $1:$1 savings matches (up to $2,400) to those who apply for and complete a 2-year personal savings commitment, write a business plan, meet with a mentor, and participate in PFI events.

Type of Work | Topical Category | Geographic Location
--- | --- | ---
Business Development/Technical Assistance | Market development and access | Statewide
 | Food and agricultural entrepreneurship
 | Food-based community and economic development
 | Food crop production
 | Livestock production

Program Examples
- Programs include networking, workshops, field days, cooperators’ program, Farminar Online Learning and savings incentive programs

It is all about the network. Beginners want to talk with others like them, to break the isolation they report to us, and connect with farming colleagues. Over 350 of Iowa’s beginning farmers are in our network. Hundreds more are out-of-state who participate in our online Farminar online seminars. We have a great diversity of farmers, by many metrics - enterprise, markets, geography, farm size, skills, experiences, ideas, and we have the open community that freely shares for the mutual benefit of all. About half of our beginners are women.

# Quad Cities Food Hub

**Mission or Goal**
To support healthy lifestyles by promoting local food production, connecting producers and consumers, and cultivating education and training programs. In addition, the vision is to create a sustainable local food system fostered through community partnership.

</table>

**Program Examples**
The Quad Cities Food Hub is a community-based initiative designed to strengthen our local food system by expanding opportunities in both delivery and demand of nutritious, local food. Our plan is to build on the solid foundation established by the Freight House Farmer’s Market. The strategic plan calls for:
• A daily market inside the Freight House
• Creation of a certified community kitchen
• Introducing of a wholesale market to link community institutions
• Creation of community gardens in neighborhoods throughout the Quad Cities

Local food, consumer education, market access, food distribution and aggregation, food hub, shared kitchen

**Audience**
• Diverse array of local food system stakeholders
Mission or Goal

RFSWG conducts research, supports education, and facilitates partnerships to increase investment and support of community-based, economically sustainable, and environmentally and socially responsible regional food enterprises. The group is part of the Iowa-based network of food and agricultural working groups called Value Chain Partnerships.

Type of Work

- Outreach/Extension
- Networking
- Learning Community

Topical Category

- Market development and access
- Sustainability in the food system
- Food-based community and economic development
- Farm to school

Geographic Location

Statewide

Project Examples

The Regional Food Systems Working Group supports the following local food groups:

- Flavors of Northwest Iowa
- Iowa Great Lakes Local Foods Network
- Northeast Iowa Food and Farm Coalition
- Northern Iowa Food and Farm Partnership
- Southwest Iowa Food & Farm Initiative
- Southern Iowa Regional Food Systems
- Healthy Urban Food and Farming Group
- Quad City Food Hub
- South-Central Iowa Area Partnership
- Harvest From the Heart
- Hometown Harvest of Southeast Iowa
- Dubuque Eats Well
- Iowa Corridor Food and Agriculture Coalition
- North Central Iowa Local Food Partnership
- Great River Food Alliance of Southeast Iowa Inc.
- Green County Local Foods Working Group
